LARGEST MAJORITY

GIVEN IN MANY YEARS.

Vote on the second reading of the Autonomy Bills comes on Wednesday

Ottawa, May 1st.—The vote on the second reading of the Autonomy Bills takes place on Wednesday. Although some Liberals on account of ill-health, will not be able to be present, the majority for the Government will be the largest that any Government measure has obtained for many years past.

SBARRETTI REPORTS

ON HIS ALLEGED INTERFERENCE

Manitoba's Attorney General conferred with him as to best means of ameliorating Manitoba's school system.

Rome, May 1st.—The Vatican has received from Sbarretti at Ottawa a full report concerning his alleged interference in the Manitoba boundary extension. Sbarretti gives most detailed particulars of the whole affair denying emphatically that he had any understanding with Premier Laurier or other members of the Canadian Government to save the Catholic school question connected with the extension of Manitoba's boundaries. He admits that he met the Attorney General of Manitoba and discussed with him the best means of ameliorating the educational system of Manitoba.

REFRESHING SHOWERS

FELL IN THE VERMILLION VALLEY.

Seeding completed and wheat showing—Railroad contractors preparing for work.

Dr. Goodwin came in from Vegreville on Saturday and will spend a few days in the city. A heavy rain fell in the Vermillion country on Saturday, April 22. It was general throughout the district and was greatly appreciated by the farmers. Seeding in the Vermillion was very early and is practically completed. Wheat seeding was completed a considerable time since and the wheat is now well above ground.

The C. N. R. grade sub-contractors are moving their outfits onto the line and getting in shape for the season's work. The grade is practically completed as far as Lloydminster, one hundred miles beyond Vegreville, or two hundred miles from Edmonton. Between Lloydminster and Vegreville many of the low places were graded during the dry weather last fall. The remaining grade work will be through an easy country and with few interruptions or obstacles. A heavy cut has to be made through the Blackfoot Hills east of Vegreville, and it is expected a large gang will be put on this at once, and the cut completed in a month. Mr. Ryan, of Vegreville is a new sub-contractor on the work this year, though an experienced railroad builder. Messrs. Wilson's grading outfit, which wintered at Beaver Lake, was to pull out to the line late last week. Richards party, it is expected, will begin work near Beaver Creek. McArthur's outfit is on the road in via Saskatoon and on its arrival work for the season will begin.

A CROOKED STREAM

MAY CAUSE INTERNATIONAL TROUBLE.

Ottawa may protest to Washington against diverting the course of the Milk River.

Ottawa, April 30.—It is reported that the United States government has authorized the construction of certain works on the Milk River, which runs from Montana into the Northwest, and then back again to the United States territory, which will have the effect of diverting this stream from Dominion territory. It thus be so the Dominion will enter a strong protest to the Washington authorities. The Dominion asked that this question should be referred to the International Waterway Commission but the United States refused to do so.

WINNIPEG BANQUET

TO THE MEMBER FROM EDMONTON.

Western Member of Parliament present at a complimentary dinner in Winnipeg.

Winnipeg, May 1st.—The Young Liberals Club feted Hon. F. Oliver on Saturday evening, when over 400 enthusiastic admirers sat down to a banquet in his honor. Mr. Oliver spoke of the development of the North West and its relation to Winnipeg. He also discussed the active liberalism of the West and touched on other live topics of the day, including the much debated Autonomy Bill. The toast of the Federal Government was responded to by Walter Scott, M.P., who said the appointment was approved by both the Liberal party and the leader of the Opposition. Messrs J. G. Turfitt, M.P., P. Talbot, M.P., Chervier and Ashdown also delivered felicitous addresses.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

THE N.W.T. GOVERNMENT OR
THE C.P.R.

A few days since an article appeared in the Bulletin reproducing statistics from the annual report of the Department of Agriculture, Regina, showing the crop returns for Northern and Southern Alberta. The Calgary Herald is not pleased with the figures and utilizes a two column heading to inform its readers that the Bulletin's "Argument falls flat, and that the statistics are woefully inaccurate as favoring Edmonton." To demonstrate the error of the statistics the Herald quotes the statement of the C. P. R. that there are 25,000 acres sown to fall wheat in the Calgary district.

The Bulletin may be allowed to express the hope that the C. P. R.'s figures are correct and that all that Calgary anticipates from the production of fall wheat may be more than fulfilled. But how the C. P. R.'s estimate for the present year disproves the Government returns for last year, is scarcely clear.

It may be suggested too, that the "argument" is not the argument of the Bulletin, but of the North-West Government, and that if the "statistics are woefully inaccurate" the Herald should take the matter up with Hon. F. W. G. Haultain, whom it is now booming as the destined Okemov of Alberta.

REGINA PREPARING TO
CELEBRATE.

Premier Haultain is now in Regina, and will indicate the part to be taken by the Territorial Government in the celebration of the change of status of the Territories, on the 1st of July. Mr. Wm. Trant, secretary of the organization, arranging the celebration, reports that great enthusiasm exists respecting the affair, particularly noticeable in Alberta. The town of Macleod is delegating not only its mayor, but as many of the members of the town council as possible. Strathcona town council has delegated its mayor, Dr. DeVeber, M.L.A., from Lethbridge, is actively working in his district. A. C. Rutherford, M.L.A., for Strathcona, and Deputy Speaker, will attend. Other Western M. L. A.'s are: H. A. Grocke, of Maple Creek, and R. A. Wallace, of High River. Mr. Speaker Gillis will also be present, as well as J. H. McDonald, leader of the Opposition, and J. R. Hawkes and G. W. Brown, members for Regina.

TEACHERS' INSTITUTES.

By direction of the Commissioner of Education Mr. McColl, Principal of the Normal School, and Mr. Perrot, of the Teaching Staff, assisted by the inspectors of the various districts, will conduct Institutes as follows:—

The Department of Education recognizes the importance of these meetings in bringing the teaching body together for the discussion of topics of educational interest, and it is hoped that as many teachers as possible will avail themselves of this means of professional instruction.

In accordance with the regulations of the Department all teachers residing within a reasonable distance of the place where an Institute is to be held shall receive due notice thereof and shall be expected to attend. Every teacher who desires to attend a Teacher's Institute held under the regulations shall have the right to do so, and every district whose teacher attends any such Institute shall be entitled to the Government grant for the teaching days during which such teacher is present at the Institute as shown by the register of attendance received at the Department.

A cordial invitation is extended to the public to be present at Institute. The morning session will, as far as possible, open at half-past nine o'clock; the afternoon session at two o'clock.

WHAT HAULTAIN ASKED FOR.

From the Regina Leader:
"In his famous Draft Bill, which was assented to by the Legislative Assembly on May 2, 1906, Premier Haultain asked that the following clause be enacted by the Dominion Parliament in regard to education in the new North-West provinces:—

"On, from and after the said first day of January, 1903, the provisions of the British North America Act 1867, except those parts thereof which are in terms made or by reasonable intendment may be held to be specially applicable to the Province of (Saskatchewan) in the same way and to the same extent as they apply to the provinces of Canada AND AS IF THE PROVINCE OF (SASKATCHEWAN) HAD BEEN ONE OF THE PROVINCES ORIGINALLY UNITED BY THE SAID ACT."

"This in the plainest possible language Mr. Haultain and the Legislative Assembly in May, 1906, asked the Dominion Parliament to maintain the existing school system in North-West. One of the provisions of the B. N. A. Act 1867 is that 'nothing in any such (provincial) education law shall prejudicially affect any right or privilege with respect to denominational schools which any class of persons have by law in the province at the union.' Consequently every right to separate schools existing in the Territories today would, under Mr. Haultain's draft bill become law in the new province.

"True, since this Draft Bill was passed by the Legislature, Mr. Haultain has raised the contention that the Territories entered Confederation in 1870, at a time when there was no school law, and consequently no separate schools. But, supposing it were held by the law courts to be correct—that which result, however, there are very grave doubts expressed—Mr. Haultain, by his draft bill would override it because he would have the present Territories constituted a province retroactively, 'AS IF THE PROVINCE OF (SASKATCHEWAN) HAD BEEN ONE OF THE PROVINCES ORIGINALLY UNITED BY THE SAID ACT.'"

"The statement is continually being made that the people of the Territories never asked to have provision for separate schools inserted in their provincial charters, but the action of Mr. Haultain's draft bill giving that the existing system of schools be guaranteed to the new provinces gives a point blank denial in any such statement.

"It is further asserted that the present Territorial school law has never been approved by the people of the Territories; that, on the con-

trary, it has been imposed upon us. The basis of the present system may have in the first place been imposed upon us by legislative enactment at Ottawa in the passing of the North-West Territories Act 1870, but by asking that it be made part and parcel of our provincial charter Mr. Haultain and the Legislative Assembly—and through it the people of the Territories—must be held to have expressed approval of the present system. And looking at the matter from the negative standpoint when and where have our people, or has Mr. Haultain himself, or any public man or political or public organization of any kind, expressed disapproval of the system up to the time it was incorporated in the autonomy measure?

Another matter which has been urged against the Liberal members at Ottawa who are supporting the Autonomy Bill is that they have no mandate from the West to support a measure which guarantees a separate school system. On the contrary it is those who are opposing the guaranteeing of such a system who have no mandate. The draft bill, prepared by Mr. Haultain, passed by the Legislative Assembly in 1906, and endorsed by the people at the polls in 1902 is the mandate in favor of the present school system, which it is proposed by the Autonomy Bill to continue without any alteration or addition whatever."

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicuragua district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

THE NEWS OF TO-DAY

IN CONDENSED DESPATCHES.

Brief items from many sources tell the story of the day's events.

DEATH DEALING TORNADO.

St. Louis, May 1.—Particulars of the tornado that swept Laredo, Texas, say that over 100 were killed, and several hundred injured. 150 houses destroyed, and two hotels and fifty railroad coaches wrecked. Thirty-five guests were killed in one hotel.

ROOSEVELT REPORTED ILL.

Glenwood Springs, Colo., May 1.—Persistent rumors come from the west divide, that President Roosevelt is ill in his camp.

NEW WINNIPEG TRUCK.

Winnipeg, May 1.—R. J. MacKenzie is to build a mile race course on the western limits of the city.

STREET CAR FATALITY.

Detroit, May 1.—A street car collision occurred yesterday in which one was killed and a dozen injured.

A CAROLINA WRECK.

Greenville, S.C., May 1.—A special ran into a switch engine here and four members of the special's crew were killed. Several passengers were injured.

PEACEABLE RELIGIOUS FUNCTION.

St. Petersburg, May 1.—Impressive scenes were witnessed in this city and Moscow yesterday, where the festival of the risen Lord was celebrated with much pomp and magnificence. Contrary to most expectations the great feast was unmarred by disorder. The authorities however, took every precaution to quell any outbreak.

RIUCTION IN CHICAGO.

Chicago, May 1.—Roosevelt may be asked to intervene in the labor trouble. Fighting in the streets Sunday was the most vicious since the teamsters strike began; three were shot, two stabbed, and forty otherwise injured while a fierce land to hand fight between the men and the police occurred in every business part of the city.

SADDLE LAKE ITEMS.

Saddle Lake, April 25th.—Rain has fallen only once this spring. Seeding is progressing very nicely. Mr. Chisolew, Inspector of Indian Agents is at present inspecting this agency.

Dr. Aylen arrived on his quarterly visit. Many Indian children are suffering from pneumonia, and there have been a number of deaths.

On April 17th at the residence of the bride's parents Joshua Shurt was united in wedlock to Della Cordinal (Wepamas), Rev. R. B. Steinhilber officiating.

Mr. and Mrs. Chas. W. Leonard made a trip to Edmonton returning last week. They report the road excellent though somewhat dusty.

Mr. Augustin Steinhilber attended Easter services at Whitefish Lake.

Some of our people attended the Liberal rally at Whiteford.

Our good river men are out of a job so far this year as the water is so low. At Denbair the ferryman leaves the traveller in the middle of the stream.

Mr. Water of Seattle arrived here but returned to Edmonton to bring down his wife and family.

Mr. Greenstreet and Mr. Chas. Greenstreet, of Boyne, passed through on their way to Edmonton.

BANQUETTED IN CALGARY

Concerning the banquet tendered Mr. Oliver in Calgary on Thursday evening the Albertan says:

The citizens of Calgary welcomed Frank Oliver last night in a very enthusiastic manner at a banquet at the C. M. R. drill hall. The banquet was in every way a success. The attendance was very good, the spread was all that might be desired and the speaking was very good. The audience was a representative one and the entire affair was a credit to the city of Calgary.

Mayor Emerson presided at the banquet. At his right was Hon. Mr. Oliver, the guest of the evening. At his left was Mr. Turfitt, M.P. About him were Peter Talbot, M.P.; Dr. DeVeber, M.L.A.; R. J. Hutchings, R. R. Jamieson, Dr. Stewart, Mr. Langan of Chicago, Major Duffus and others. Some of those present were the following:

We Paid \$100,000

For Ligozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Ligozone, the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Kills Inside Germs.

Ligozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vivifying, purifying. Yet it is a germicide no certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

ourselves, that we will have the great benefit and advantage of one so well qualified as yourself, and so ultimately bound up with our interests and well being, to guide and assist us to work out our highest destiny, and place the two provinces, about to be created, in the front rank of the units of confederation.

We fully realize the great responsibility and the enormous amount of work that will devolve on you in the fulfillment of your duties, and we hope and trust that you may be long spared in the enjoyment of vigorous health and strength to perform the work appertaining to your office.

Signea on behalf of the citizens of Calgary.

JOHN EMERSON, Mayor.

Mr. Oliver, in rising to respond to the toast, was received with a torrent of applause. When it had subsided, Mr. Oliver said:

"Your address, Mr. Mayor, and the speech of my friend Ald. Stuart are so flattering as to make it impossible to say what I should like to say in appreciation of the kindness so shown. It is not so much what you said as in the way in which it was said. The people of Calgary have gazed me under great obligation by the kind manner in which they have received the appointment to the position I have been called."

Mr. Oliver said he did not agree with Ald. Stuart, who said that there was always room in this country for those who deserved success. There were old timers of '76 who had as high aspirations, and as great hopes of the future as he had.

But on looking around he found very few who in the early '70s held those hopes and aspirations, who had worked for the accomplishment of those hopes who were in a position to share them. It is not always those who deserve it who succeed. But there was pleasure in struggling.

Mr. Oliver referred to that portion of the address in which reference was made to the duties and responsibilities laid upon him and his ability to fulfill them. Those who compiled the address had more hope than he had. But if knowledge of the past and the present and a glowing hope in the future give good results he had these qualities to aid him.

In speaking of the City of Calgary, he referred to the times of '77 when he saw this country very different from the present. He believed that he had arrived at the appreciation of the great part in which Calgary does now and will always play as a commercial centre of this vast district. It has been said that the confidence of the people of Calgary is superb, but there was a time when this confidence was somewhat shaken. But those days have gone, and Calgary is now the model city of the Dominion. There is nothing to beat the city of Calgary in its general appearance, in its business blocks, in its residential dwellings in all Canada.

This Western country was a great country for the production of wheat and of cattle and of other forms of wealth, but better still, it was a great country for the production and rearing of people, for the attainment of the highest form of civilization. With a climate that fills with physical and mental vigour, this country must be the home of people with remarkable mental

and physical ability. We shall establish a civilization superior to that in any part of the world. We are the people to do it and we are in the right place to do it. That is my ideal and in any capacity in which I occupy I shall try to realize this ideal. We shall not be the second but shall strive to be the first. A Scottish regiment has a motto "Second to None." I should like to make a motto for the West, an improvement upon that. My friends say that you cannot improve upon the Scotch in Scotland, but if you give Scotchmen the advantages of a great country you may be able to improve upon them. The motto for the West should be "The First."

In referring to the political matters Mr. Oliver said that the worst thing there was in a country was political stagnation. Next to that was constitutional political turmoil. He had had occasion to visit Calgary before but it was almost always in battle array and Calgary people are something of fighters themselves. He believed that during times of strife that all should unite hand in hand and shoulder to shoulder to push the country ahead until the next time of political trouble arises.

Mr. Oliver referred to his own appointment and realized that it gave him greater opportunity for usefulness and good work. He felt that it would not be doing justice to those who had imposed confidence in him had he refused to accept this greater sphere of influence.

He paid a very graceful tribute to his predecessor in office, Hon. Clifford Sifton, gave him the credit of much of the prosperity of the West and hoped that when the time came for him to lay down the office that there would be as much to show in the way of success and development as his predecessor, and then he would be satisfied and the people would be satisfied.

In proposing the toast of "The New Provinces," R. J. Hutchings made a very appropriate address. He strongly endorsed the proposition of laying aside political prejudices and to develop for the first few years North West politics. If party politics stood in the way of the development of the country then party politics should be eliminated. The best men were required to deal with the affairs of the state. He referred to the enthusiasm with which Mr. Oliver was received. "He deserves what he has got. We are proud of him. He is an Albertan. We have every confidence in his address."

J. G. Turiff, M.P. of East Assiniboia was the first to respond to the toast. He suggested that if the members of Parliament could be induced to visit the West there would be no more misunderstanding with the West. He was glad to know that that feeling was passing away. He too paid a tribute to the ability of the late Minister of the Interior. He did not believe that another man in Canada could have carried the work that Mr. Sifton had done. Sir Wilfrid Laurier, in selecting a successor to Mr. Sifton, had picked upon the very best man to fill the position. The position of Minister of the Interior was second only to that of the Prime Minister, second not only to the West but to the whole of Canada. Every one of the members of Parliament of the West, British Columbia, in the Territories and in Manitoba were satisfied that the choice made by the Premier was the very best one.

In speaking of the new provinces, he advised that they should live within their income. There was no necessity for pledging credit to railways, the Dominion would see that the railways were built.

He referred to the financial terms as being very satisfactory and also pointed out that in addition to the regular grant about half a million dollars had been granted for public buildings and, "What a lot of building can be done with half a million dollars in a place where building stone is so convenient."

Peter Talbot, M.P., made a neat speech congratulating Calgary upon the work it has done for the live stock industry of which it was the centre and would ever remain the centre.

R. R. Jamieson, A. E. Cross, Dr. Stewart, Dr. de Veber and Mr. Langdon, of Chicago, also responded to this toast.

Music was supplied by Bagley's orchestra.
